

# Get Ready for your First Week

Welcome to It's Maid Day, home cleaning services,

Your training will start with hands-on training. This is typically the best way to start learning “How and What” we clean.

Although you will eventually have two full days of classroom training, including Certification Classes from the world leader **Maid Training Academy**, it is very important that you understand what we clean.

We will pay you your normal cleaning wage to watch a one-hour video that reviews our “Quality Assurance Checklist” **before you start your practical training**. This checklist is included in your new employee paperwork. This one-page, double sided document includes everything we clean which makes it the most important written document for our cleaners and our customers.

Watching this video will help you during your first few days. Watch the entire video. Don't fast forward or skip anything. **Follow the instructions to get paid.**

Go to [www.ItsMaidDay.com/checklist](http://www.ItsMaidDay.com/checklist)

## What to Wear on your first day:

Wear jeans or athletic wear pants, tennis shoes and a solid-colored shirt. We provide uniforms after your first 5 days. During your first 5 days you need to wear your own shirt. Please wear a solid-colored shirt or something with a general print pattern.

After 5 days of training and cleaning, we will provide company shirts. We allow Cleaning Partners the option to continue to wear any solid-colored shirt moving forward but it has to be black or navy. Team Leaders are required to wear a company shirt or arm badge.

Bring a drink and your lunch if you like. Most people do. We do make stops during the day.
