CORE Cleaning

This cleaning plan is a popular option to the Deluxe Clean because it focuses on the CORE and often hardest rooms / areas to clean and is discounted 20% below our Deluxe Clean.

The areas included in the CORE Cleaning:

- ➤ Kitchen and the adjacent dining area (kitchen table and chairs) not the formal Dining Room
- All Bathrooms
- One additional room of your choosing
 - (Family Room is the most popular choice because it's often next to the kitchen and the Family Room is a high traffic room.
- Vacuum and Mop all floors throughout the home including stairs
- Collect trash throughout the home

The maids clean these rooms the same way as the Deluxe cleaning, so you get the same high-quality cleaning you expect with the Deluxe Clean.

Important things to know about CORE Cleaning

- The Kitchen area includes the adjacent dining area. In this cleaning package the kitchen is considered to be the area where the kitchen countertops and cabinets end, PLUS the kitchen table and chairs.
- We do not make all the beds in the home. We only make the bed if the additional room selected is a bedroom. Customers can purchase bed stripping and changing sheets as an option for any bedroom at \$3 per bed.
- You can change your one additional room cleaned at any time. Contact the office or simply leave a note for the maids.
- Your one additional room cannot be larger than a typical Family/Living room. Some basements have extra-large rooms. Any room selected that is larger than a normal Family/Living room is subject to additional fees to cover the additional time for the larger room. It's typically \$10 more for a large room.
- We clean the Kitchen, Bathrooms, plus one room. The rest of the home we vacuum/mop the floors plus collect the trash but we don't clean or dust these rooms.
- You can upgrade or return to Deluxe Cleaning at any time.
- Many customers often purchase a Spring Cleaning every year, or more frequently, to get their entire home cleaned including those areas not included in the CORE Cleaning.
